Industry Trendsetter2017,storming its way to the top of ceramic tiles brands in India. With such a huge label that we carry with ourselves,our strength lies in the amount of time and technology we provide for the R&D department that allows us to come up with innovative and reliable solutions. To put those solutions into practice,we have got on board, most advanced technology, and machinery that we source from Italy and Spain.

These parameters have helped us to obtain a massive growth rate since, in the year 2007, we had commenced with the production capacity of 55.000 SqMtr. per day along with exclusive Sanitary-Ware plant with a total production capacity of 2,50,0000 pieces every year.
